

# Bakiga Community Project Christmas Water Tank

We are seeking to build a very large water tank for the people of Bukoora. It will hold around 20,000L saving many in the village from walks of up to an hour to carry back Jerry cans of water. Villagers can choose to buy water, but it is expensive. We will sell the water at less than half the price they currently pay, assisting the village and also providing an income for the project. The tank will cost around £500 to build so please consider contributing to a lasting Christmas gift that will really make a difference.

A smaller tank we built for the project, holding 6000L

He who is generous to the poor lends to the LORD.

Proverbs 19:17

For details of how to support the Water Tank, Please email Craig & Claudia Smith at [csmith@crosslinks.org](mailto:csmith@crosslinks.org)
